T700

COST EFFECTIVE 4G PORTABLE POC RADIO

Over 4G networks, T700 combines long-range wide area network and the ruggedness and reliability of a business-critical push-to-talk device. Featured with loud and clear audio, a dedicated emergency button, and a 4,000mAh battery that lasts several days long, it is built for business like hospitality, hospitals, property security, supermarkets, logistics, industrial parks and more.

▶ KEY FEATURES

Push-to-Talk, Millisecond Response

- Offers instantaneous one-to-one and one-to-many voice communication.
- Ergonomic design, large PTT button, easy to operate with accidental touch protection.

Large Battery Capacity, Power for Multiple Shifts

4000mAh high-capacity battery support at least 50hours working and 100hours standby, to let your device stay in the field as long as your team does and be handed over from shift-to-shift without charging.

Superior Audio Quality

With large speakers and louder, clearer audio with receive and transmit quality, this device allows your team to hear and be heard in any environment you do business.

Abundant Auxiliary Connectors

More convenient operations realized through to a range of accessories, such as compact earpieces, Type-C & USB 2.0 charger, desktop charger, etc., to let your team communicate with ease.
